**Battery:** Must be box stock

**Motor:** Box Stock

**Wheels:** Box Stock

**Tires:** Box Stock

**Servo & shock Oil** can be changed

# Racing Format

## Chicago Style

**Double Crash:** If both trucks flipped or wreck simultaneously \, Officials review which truck was further along the track or crossed the finish line first.

**Final Decision:** The Monster Jam Officials make the final ruling on which driver advances based on track position at the time of the incident.

**Result:** Even if both trucks land on their roofs, one is usually awarded the win based on being “ahead” when the crash occurred.

If only one driver flips the other driver advances.

## Free Style

**2:00 min run time.** Song of driver’s choice may be played during running time. (Please remember we are a family friendly environment and can deny any song that isn’t appropriate.)

**Order of runs will be drawn.** As you sign up you will receive a token with a number and once all precipitants are signed up you will draw again according to the first number you drew at sign up. It is your responsibility to keep up with the token to be turned in for the drawing of the order. Any lost tokens will be placed at the end of order.

**3 roll overs and you’re done.**

**Driver will be responsible for each reposition of the truck.**

**Driver only on the track during run time.**

**30 points Max**

**Judges will be chosen at random, by Staff or Track Owner.**

## Best Trick

**30 points Max**

**You can do a combination trick but only one trick.**

**Same judges chosen will judge this event as well unless they are leaving and at that time Staff or Track owner will choose another judge or judges.**

## **Over-Under Race**

**Double Crash:** If both trucks flipped or wreck simultaneously \, Officials review which truck was further along the track or crossed the finish line first.

**Final Decision:** The Monster Jam Officials make the final ruling on which driver advances based on track position at the time of the incident.

**Result:** Even if both trucks land on their roofs, one is usually awarded the win based on being “ahead” when the crash occurred.

If only one driver flips the other driver advances.

## **Best Doughnut:**

Driver gets one attempt to do the best doughnut his or her truck can do.

Judges will score from 1-10 with a top score of 30 points.
